Welcome to InterConnect!

Interoperable solutions connecting smart homes, buildings and grids

InterConnect is a European project which aims to develop and demonstrate advanced solutions for the digitalisation of the electricity sector.

[FIND OUT MORE](#)

"The project places the foundation for the future of smart energy management solutions. All the 51 partners are committed to create the necessary tools and methodologies to actually go for interoperable solutions to connect smart homes, buildings and grids."

[David Rua, Project Leader](#)
